Premises

The Company offices are located in New Delhi and it runs P & O clinics in all major metros.

It has franchise network of over 250 outlets.

Gel & Silicone Care Products

Our ongoing mission is to provide exemplary products and services that improve the life quality of our customers and community. Our mineral oil gel & Silicone care products offer unique benefits unavailable in the competitive market.

Our gels & silicone care products are clear, non toxic and hypo allergic. Made with great care these cushion and protect specific parts of the body against impact, pressure and shear forces, while simultaneously releasing moisture-rich mineral oil that gently hydrates, softens, and conditions the skin without the use of additional creams or lotions.

Their visco-elastic properties enable our gels to move synergistically with the skin which prevents abrasion and discomfort. Our user-friendly products easily adapt to a wide range of body types and builds to ensure high patient compliance.

Technologically advanced manufacturing capabilities allow us to create a vast assortment of gels for a variety of uses. Additives such as vitamins and minerals, antioxidants, moisturizers, and fragrances can be applied to our gels to address specific concerns across numerous markets. Our gel and silicone products are washable and reusable, and with proper care will continue to release skin-beneficial mineral oils throughout the life of the product.

OUR PRODUCTS

Endolite Gel Toe Separators

- Anatomically designed to fit comfortably between toes
- Relieves pressure and friction between toes
- Helps correct overlapping toes
- Comes in Small & Large sizes
